REMARKS

ILLEGIB

25X1

1. [REDACTED] observed intensive construction work in the area of the barracks installation in Pasewalk on 8 September 1952. Three AA guns of about 80-mm caliber and 5 guns of 120 to 150-mm caliber were observed in the barracks yard.

25X1

2. On 23 August, 15 factory-new [REDACTED] ambulances coming from the direction of Prenzlau arrived at the installation. On 6 September, 12 factory-new [REDACTED] BMW sedans coming from the direction of Neubrandenburg entered the barracks installation.

4. On 15 September, [REDACTED] the barracks installation at Pasewalk did not quarter VP units but the headquarters of the Armeegruppe Nord. *

5. Between 14 and 16 September, the Eggesin area was inspected by General V.I. Chalkov and VP Generalinspekteur Heinz Hoffmann.

6. In the afternoon of 5 September, about 50 factory-new 3.5-ton trucks of the VP arrived at the Kavallerie in Pasewalk. The trucks come from the direction of Prenzlau. During the night of 16 September, numerous tanks and prime movers left the installation toward Viereck.

7. In mid-September, an estimated 400 tanks were assembled in the Eggenin area. *
In mid-September, 3 km of the spur track leading to the former Torgelow
ammunition depot were reconstructed.

25X1 ☐ Comment. The high echelon headquarters of the Kasernierte-Volkspolizei
located in Pasewalk was referred to by several deserters as Armeegruppe Nord.
It remains to be seen, whether this designation is correct. It is believed that
this headquarters exercises at least the functions of an army headquarters.

25X1 ☐ Comment. This figure roughly agrees with previous information concerning
tank shipments to this area.
